

Residences at Four Seasons Resort Chiang Mai, Thailand still for sale.

Completed at the end of 2009, three of the five Phase II villas remain available for purchase at the Residences at Four Seasons Resort Chiang Mai in Mae Rim Valley.

Developed by Minor international Plc. and starting from US\$4.5 million, the Four Seasons Resort is the only branded luxury residential project close to Chiang Mai. In a region known for its temperate weather, mountains, and fertile valleys, the city was voted number 3 in Top Cities in Asia by the Travel + Leisure Magazine World's Best Awards 2009.

Enclosed in their own individually landscaped gardens, created by the famous Bensley Design Group Studio, each residence has been crafted in the northern-Thai "Lanna" style, including curved windows, decorative doors and shutters in gold-leaf designs, complemented by the modern conveniences of heated Jacuzzis, lap pools, state-of-the-art entertainment and home-management technology.

Owners also have access to the Four Season's full service, amenities, world-class spa and butler services.

In addition to the three Villa Residences, two of the twenty four Phase I condominiums remain available as well.
